Dear Paul,

Read Sylvia's very interesting historical piece tonight. Many thanks. Unlike her, however, she gives no sources. I presume some at least are in the Archives. I ask because I am anxious to read the full texts of some. Do you know? Are any of them in the Texas reports, of which I've never been able to get a copy? Do you have any?

I find it interesting that to her "WHITEWASH, which was in general circulation almost two months before INQUEST, did not publish excerpts from the FBI summary report.

Only in facsimile!

She hurts herself only by this sort of thing. Too bad.

It is a valuable piece. Some of it was unknown to me. It will be an important part of the history of the Commission and its work.

I do appreciate it. Thanks.

The enclosure, from "Ecumenical Politics", was forwarded and reached me today.

Sincerely,

Harold Weisberg
